

Ecology, Evolution, and Behavior Seminar Series

Spring Semester 2018, Thursdays 3:30-4:45 PM in Goodwin Hall 135 (except as noted)

Date	Speaker	Title	Host
19 Jan	Scott Edwards <i>Harvard U.</i>	Genes or gene regulation? Understanding the evolutionary genetics of flightlessness in birds <i>Martin Luther King, Jr. Day Speaker</i> Biocomplexity Institute Auditorium, Friday 12:20 pm	Biol. Sci. Diversity Committee
25 Jan	Corrie Moreau <i>Field Museum</i>	Ants, Plants, and Bacteria: Symbiosis as a Driver of Evolutionary Diversification <i>Entomology Graduate Student Invited Speaker</i>	Hennen
1 Feb	TBA	TBA	Stevens
8 Feb	Elizabeth Tibbetts <i>U. Michigan</i>	Wasps know each other's faces: communication and cognition in the <i>Polistes</i> <i>Co-sponsored by Entomology</i>	Hawley
15 Feb	Leslie Ries <i>Georgetown U.</i>	TBA	Johnson
22 Feb	Anjali Goswami <i>University College London</i>	TBA	Stocker
1 Mar	Andrea Townsend <i>Hamilton College</i>	TBA	Aberle
8 Mar	SPRING BREAK		
15 Mar	Brian Walker <i>Fairfield U.</i>	TBA	Moore
22 Mar	Rocky Parker <i>James Madison U.</i>	TBA	Moore
29 Mar	Nancy Pau <i>US FWS</i>	The human factor: a case for including the people variable in conservation design <i>Fish and Wildlife Graduate Student Invited Speaker</i>	Brooks/ Lutter
5 Apr	Ellen Ketterson <i>Indiana U.</i>	What evolution, ecology, and behavior have in common: the organism in the middle <i>Biological Sciences Graduate Student Invited Speaker</i>	Lane/ Vernasco
12 Apr	Xingli Giam <i>U. Tennessee</i>	TBA	Mims
19 Apr	IGC Student Symposium (no seminar)		
26 Apr	David Lytle <i>Oregon State U.</i>	TBA	Brown
