Foreign Language Requirement: A sequence of two foreign language courses is required for graduation unless two years of high school credits of the same foreign language or 6 transfer credits of one foreign language have been earned. These credits do not count towards graduation.

**Footnotes:**

◆ Courses are included in the in-major GPA with the exception of HNFE 1114.

<sup>1</sup> Credit cannot be received for both COMM 1016 and COMM 2004 if COMM 1015-1016 taken for Concept 1f.

<sup>2</sup> A minimum grade of "C" is required in both CHEM 1035 and 1036; CHEM 2514 or 2535; and HNFE 1004.

<sup>3</sup> Acceptable substitutions

<sup>4</sup> Students should choose organic chemistry based on what is required for their career and professional pathway.

<sup>5</sup> Students completing this option meet the Accreditation Council for Education in Nutrition and Dietetics (ACEND) Standards of Education. Students who successfully complete the Dietetics option are qualified to earn an ACEND Didactic Program in Dietetics Verification Statement.

<sup>6</sup> A total of 120 credits must be completed for graduation, regardless of a course counting in two checked areas. If all Pathways courses only fulfill one Concept, students will have total credits above 120.

University GPA Graduation Requirement: Minimum Overall GPA: 2.0; In-Major GPA: 2.0.

HNFE Satisfactory Progress GPA Requirements: Minimum In-major GPA requirement: 2.5; HNFE Dietetics Overall GPA: 3.0

HNFE is a restricted major. Students who wish to change into, transfer into, and/or continue to study within HNFE must have and maintain the following:

**SATISFACTORY PROGRESS TOWARDS THE DEGREE:** An HNFE (Dietetics option) student will be considered to have made satisfactory progress toward the degree when he/she has successfully completed:

1. In-major GPA  $\geq$  2.5.
2. Overall GPA  $\geq$  3.0.
3. Grade of C or better in HNFE 1004, CHEM 1035, CHEM 1036 and CHEM 2535 or 2514.
4. These courses must be completed by the time the student has attempted 72 hours:
  - BIOL 1105-1106 or equivalent.
  - CHEM 1035-1036 or equivalent.
  - CHEM 2535 or 2514.
  - HNFE 1004.

Students not meeting Satisfactory Progress will have one probationary semester in which to resolve their standing. Students who do not return to good standing at the end of the probationary semester must leave the major. Internal or external transfers will be required to create a plan of study that demonstrates how the student will attain Satisfactory Progress in regards to coursework. The GPA threshold will stand for all students regardless of transfer status.

**SUGGESTED ELECTIVES** (students who bring in AP/IB/Dual Enrollment credits may wish to take additional courses. The courses below complement the program in Dietetics but are not required)

Prerequisites for courses are listed in the Undergraduate Course Catalog and associated with the CRN hyperlink on the on-line Timetable. It is the responsibility of the student to make sure the prerequisites for each course have been met. HNFE checks for prerequisites both during course request and at the beginning of the semester. Students who enroll in a course for which they clearly have not satisfied the prerequisites or equivalent may be dropped from the course. Deliberate false statements testifying to the satisfaction of prerequisites constitute a violation of the honor code.
